

# The Jackson Family

We are a fun-loving family of three hoping to become four. Our son Anthony was adopted at three-weeks-old through an open adoption and has been an absolute blessing. We are excited about having a precious little one join our family and cannot wait to begin sharing our love and lives with him or her.

We understand this is a difficult time for you. Please know we admire you for considering adoption and hope you find peace and comfort in whichever family you chose.
