

# ROB AND LACY

We met in 2007 and were married in 2010. Both of us were born and raised in Southern California. Growing up, we both participated in sports and extra-curricular activities like, girl scouts, band, choir, soccer, football, dance. After high school, Rob went to college to become a teacher. He now holds is Bachelors degree and has his teaching credential, working with high school students. Lacy became a nanny out of high school and followed that path which over the years has lead her to her current job. She is a Special Education Aide at a school for kids with special needs. We both have a great passion to help kids. We desire to see the children in our lives succeed in life with an education, with confidence, and with a desire to give back.
